- Virtual Assistance & Administration: Data entry, document management, appointment scheduling, email and communication support, information organization
- Technical Support: Troubleshooting, basic system administration, software support, web deployment concepts
- Productivity & Collaboration: Git, GitHub, Google Workspace / Microsoft Office concepts, online communication and collaboration tools

PROFESSIONAL EXPERIENCE

Patient Intake Coordinator | Healthcare Support – U.S.-based account

January 2026 – August 2026

- Served as a patient intake coordinator, supporting the intake and initial case coordination process.
- Handled inbound and outbound calls with patients and coordinated communication with medical providers, attorneys, and insurance-related contacts.
- Collected and verified patient information, processed referrals, and helped ensure accurate intake documentation.
- Maintained organized patient and case information in healthcare software while meeting daily productivity and quality expectations.

SELECTED PROJECTS

DocConnect: Telehealth Website — Developed using Bootstrap, PHP, and JavaScript. Allows users inside the university to book an appointment online.

Personal Portfolio Website — Built with vanilla HTML, CSS, and JavaScript. Showcases my resume, school projects, and contact form. frnkln-olvrs.github.io

Automated Grading System — Developed using HTML, CSS, PHP, and Java. Allows faculty staff to grade automatically.

Personal Web Portfolio & CMS — Developed a responsive portfolio concept with editable content, projects, services, links, images, and an administrative interface using PHP, MySQL, Tailwind CSS, and JavaScript.

Inventory, Sales & Business Management System — Designed a full-stack system concept covering inventory, sales, costing, reporting, and business intelligence using PHP, REST API architecture, MySQL, and a responsive web interface.

CORE STRENGTHS

- Organization, time management, and task prioritization
- Attention to detail and accurate data handling
- Clear written and verbal communication
- Customer service and professional client support
- Fast learning and willingness to adopt new tools and workflows
- Independent work, reliability, and accountability
- Problem-solving, troubleshooting, and technical adaptability
